

How to Download, Install, and Activate Autodesk Software

All software products purchased by your company are available in Autodesk Account on the **All Products and Services** page. The following are two methods you can use to download, install, and activate the software.

Step 1

Go to manage.autodesk.com and log in.

Step 2

In the navigation panel > Products and Services section, click **All Products and Services**.

Step 3

Locate the product card for the software that you want to install by scrolling in the list or using the search bar.

Step 4

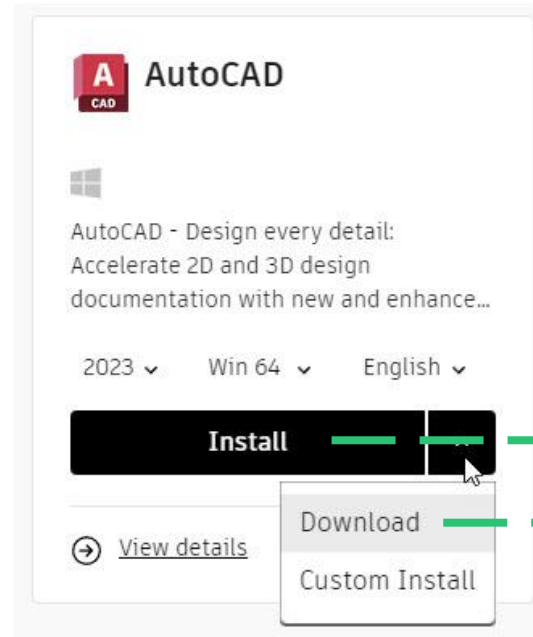

On the product card, select the version, OS, and language options, as applicable.

Step 5

On the product card, select the software installation method:

- Select **Install** to download a web installation executable file. The installation will be done over the web.
- Select **Download** in the drop-down list to fully download all executable files for local installation.

TIP: Only install your required software. If you have questions on what software is required, please contact your primary admin.

Install Method (a)

Step 6a Click **Accept** to accept the terms and conditions to begin downloading the web install executable.

Step 7a Double-click the .exe to begin web install.

Step 8a Confirm the app can make changes and verify the installation location. Click **Install**.

Step 9a When finished, restart computer (if required), click **Start**, or click **Finish** (this depends on the software product).

Step 10a Launch the software (shortcut icon or from Start menu).

Step 11a Log in using your Autodesk account username/password.

Download Method (b)

Step 6b Once the executables are downloaded, double-click the first of the files (e.g., ****_001_002.exe**, which is the first of two).

Step 7b Verify the extraction location and click **OK**.

Step 8a Confirm the app can make changes and accept the Autodesk license agreement. Click **Next**.

Step 9b Verify the installation location and click **Install**.

Step 10b When finished, restart computer (if required), click **Start**, or click **Finish** (this depends on the software product).

Step 11b Launch the software (shortcut icon or from Start menu).

Step 12b Log in using your Autodesk account username/password.
